

# **Paddymelon Pure Jojoba Oil**

## **“NATURES WRINKLE FIGHTER”**

Jojoba oil is widely known for its deep penetrating, emollient qualities and quick absorption.

### **JOJOBA OIL**

Crushed from the seed of a shrub (*Simmondsia Chinensis*). Paddymelon Jojoba is crushed only from 100% Australian Grown seeds. Spanish missionaries, in the USA, were the first to note the use of the oil by Indian tribes (Apache notably) for cosmetic, medical, and nutritional purposes. Twentieth century research uncovered the similarity of Jojoba to whale oil.

### **INSAPONIFIABLES AND YOUR SKIN**

Research shows that insaponifiables applied to skin increase the dermal state of elastin. Starting from our early twenties our skin starts to lose its elasticity. It literally cracks with the progressive loss of the elastin fibre. All vegetable oils contain insaponifiables to some degree, most around 2 to 3% Jojoba has 50%. Used daily on your skin, males as well, you can help fight the effects of time and wrinkles.

### **JOJOBA IN COSMETICS**

Most cosmetic preparations will only have a maximum of 10 % Jojoba. Feel free to add Paddymelon Jojoba to your favourite face/body cream or use the oil undiluted as a skin food. You will feel and see the difference in a matter of days. Paddymelon Jojoba is odourless, 100% natural, absorbs deep into the skin which results in a smooth satin appearance. Quality Jojoba oil will never lay on top of the skin feeling sticky. Jojoba oil if pure will set into a liquid wax below ten degrees.

### **SKIN CARE & CLEANSER**

Use daily and after exposure to the elements, as a skin cleanser or add Jojoba to your night cream.

### **PREGNANCY STRETCH MARKS, RASHES, CHAFFING AND ELBOWS**

Apply Jojoba often. If possible, warm it first for quicker results.

### **COLD SORES**

Pure Jojoba oil should be massaged in at first symptoms.

### **ACNE**

Wash face thoroughly with a good natural soap, rinse well with warm water and apply Jojoba and massage in twice daily. Watch your diet by avoiding fatty foods and dairy products. Pure Jojoba oil will help break up the scar tissue.

### **SCALP & HAIR CLEANSING**

Massage oil into scalp and hair 15 minutes before shampooing and conditioning. Jojoba is naturally pH balanced.

### **HANDS & NAILS**

Jojoba oil nourishes hands and nails. Rub well into the wick area.
